CURB MARKET.

Quantations furnished by W. R. Hibbs & Co., numbers of the New York Stock Exchange, Hibbs

New York, Oct. R.—In a dull but steady market to-dr. standard stocks made no material changes. American Beet Sugar went to the highest price in its history, and the Copper stocks paid little attention to the increase of metal reported by the Copper Froducers' Association. In the late afternoon a slight rally was caused by the government's report on grain. This showed no improvement over the previous reports, but did show that corn had held its own. So that the final corn had held its own. So that the final corn that held its own. So that the final corn had held its own. So that the final corn this year will be something above 2.700,000,000 bushels. The estimate of the wheat crop is reduced slightly. The report is important only for the fact that it stops all dispute as to the size of the crops, which are now officially determined as being equivalent to about 500,000,000 bushels of grain less than last year.

Pall Report To-day.

A general report on all crops will be issued by the government to-morrow. The government has moved to advance for an early hearing in the Supreme Court of its suit against the Union Particle Hallroad Company, under the antitrust law, of bolding Southern Pacific Hallroad Company, under the antitrust law, of bolding Southern Pacific Hierally. The cit in steel of 2 at on for deliveries from warehouses that was simofficially reported last week was only announced to-day.

Refirement of George W. Perkins from the Northern Pacific Company boards had no significance, as he represented by T. W. Lamont, representing the same interests.

Delay in filing t e American Tobarce Company's plant of dissolution is due entirely to the inability of the lawyers to prepare the necessary papers on time. There has been no bitch with the arrangement, and it is understood that the plan has been agreed to by the com-
